

**Int. Academy of Astronautics  
SETI Committee**

# **IAA SETI Committee - chair's report**

**Mike Garrett on behalf of IAA SC Executive**

Sir Bernard Lovell Chair of Astrophysics & Director of Jodrell Bank Centre for Astrophysics,  
University of Manchester.

Int. Academy of Astronautics, SETI Committee chair.

# Update since IAC 2024

- Harmonisation of Members email distribution list and membership list maintained by Lori Walton.
- No progress on harmonising Lori's list with IAA Office in Paris.
- Still awaiting new Terms of Reference for IAA Committees.
- We need the new ToR before new members can be elected.
- IAA SC chair has attended all meetings of IAA Basic Sciences Com.1. etc., IAA Academy Day & Dinner.
- IAA SC members are active on the editorial board of Acta Astronautica.
- IAA SC members proposed as IAA Corresponding members.

# Update since IAC 2024 (cont)

- Significant progress has been made in generating an updated version of the Post-detection Protocols (see later in the agenda).
- The IAA SETI Committee members organised a SETI session at Peaceful Use of Space Technology (IPSPACE 2024), 10–13 December 2024 in Hainan, China.
- The lack of an updated ToR for the IAA committees and the subsequent freeze on the appointment of new members is increasingly a problem for the SC.

# IAC 2025 & 2026 - IAA SETI Symposium

- IAC 2025 SETI Sessions A4.1 and 4.2 have been very well attended again.

# 3. IAC 2025 TECHNICAL PROGRAMME

## a. Status Report – Interactive Presentations

**76TH INTERNATIONAL ASTRONAUTICAL CONGRESS SYDNEY**
